Industry Best Warranties

INDUSTRY BEST WARRANTIES

Masport is committed to quality and performance. We back our products. On offer is a full comprehensive warranty, so you know exactly what is covered.

Depending on whether your mower is a Steel or Alloy deck, and the type of engine your mower has, there's a warranty cover tailored specifically for your new purchase.

We offer to you an impressive 6 years warranty on all Alloy Decks. If you prefer a Steel Housing you'll enjoy 4 years peace of mind. For both Alloy and Steel options, these come with either a 2 year warranty on ALL parts and engine, or a 4 year warranty with an I/C engine. Plus a LIFETIME plastic catcher warranty.

With Masport it will last, we guarantee it. MASPORT HAS YOU COVERED.

OUR 4+ YEAR LAWNMOWER WARRANTY

The Masport Lawnmower range fitted with IC Engines combines the benefits of top quality Masport lawnmowers with Briggs & Stratton Industrial Commercial grade engines. Masport lawnmowers with this engine carry a minimum 4 year warranty (conditions apply, see www.masport.co.nz for more information).

Masport unique features powered by a commercial grade engine - YOU CAN'T GO WRONG!

THE ALUMINIUM ADVANTAGE

Masport has been producing lawnmowers with aluminium housing for over 50 years. You can probably still find one of these earlier mowers today tucked away in the back of a garage collecting dust with a worn out engine, but a housing that is still intact.

Masport is so confident about the longevity and rust free advantages of its aluminium housing we offer a comprehensive 6 year warranty.

BRIGGS & STRATTON STARTING PROMISE

Briggs & Stratton 500, 600, 700 & 800 series engines include a Starting Promise as listed. If they don't start in line with the starting promise, return it to an authorised Briggs & Stratton engine service agent, and they will fix it for free**.

These engines will always start with a maximum of 5 primes and 4 pulls or it is fixed for free**.

With ReadyStart™, there's no need to manually prime or choke the engine on your mower, even from a cold start. Now even the least experienced lawn mower user can confidently start their mower. This engine should start on one or two pulls or it is fixed for free**.

** conditions apply, see www.masport.co.nz for more information.

THE MASPORT ADVANTAGE

Wash Port

Hose fitting point on the housing to clean the housing while the mower engine is running, increasing the life of the deck and improving cutting efficiency.

Self Propelled

Let the mower do the work. These models are fitted with a self drive system, all you need to do is squeeze the handle.

Combo

Combination of Catch and Mulch options on these mowers.

Adjustable Dual Bearing Wheels

Masport's ball bearing wheels include a threaded axle and nut for ease of adjustment.

Electric Key Start

Mowing is even easier with the electric start - turn the key and start mowing.

Briggs & Stratton IC Engines

Briggs & Stratton Industrial Commercial engines are designed for a longer life-span.

Snorkel Air Filter

Reduces the risk of dust getting in the engine resulting in less air filter services.

Chipperchute

Allows your mower to shred branches up to 35mm (1") in diameter and turn them into mulch. As branches are chipped they are fed back into the catcher so you can put the mulch on your compost or garden.

Quadcut® Blades

Quadcut® 4 blade disc cutting system for superior cutting and catching performance.

Zone Start

The conveniently positioned starter cord eliminates the need to bend all the way down to pull-start, reducing the risk of back strain.

Upturned Handle

Sturdy handle with upturned design for added comfort.

MSV® Handle

Wide diameter and soft grip for added comfort.

Smartchute®

Mow without the messy grass clumps. The Smartchute® will side discharge clippings in a 'sidethrow' action as you mow.

Catcher 'Full' Indicator

Ergo Adjustable Camlocks

adjustment to combat back strain. Easy fold down for storage.

Shows when the catcher is full - takes the guess work out of emptying the catcher.

Mulch & Catch

Naturally recycle the grass by recutting it and feeding it back into your lawn.

Handle Lift System

Handle lift on some models makes for easy catcher access and storage.

Dual Mowzone

With the blade coverage extending beyond the wheel width on both sides, the mower can cut closer to walls, kerbs and fences, giving a cleaner finish to your lawn.

Cut Heights

Masport Push lawnmowers have a range of cut heights from 10mm-70mm (1" - 2") and come with single point one touch height adjusters.

* Please note, not all mowers in our range contain all of these features.

THE MASPORT NAME IS SYNONYMOUS WITH LAWN MOWING!

Every lawn is different which is why Masport has developed a comprehensive range of lawn and garden equipment. Masport mowers have been designed to meet the needs of the heaviest lawn conditions and the longest mowing times, therefore they

are built to last. The models in the Masport range are feature rich, innovative and truly high performance mowers. Regardless of whether you see taking care of your lawn as a pleasure or a chore, Masport has the equipment to help you realise your vision, while suiting your lifestyle and budget.

Proudly designed and engineered in New Zealand and sold all around the world.

SMARTCHUTE®

Mow without the catcher and avoid the messy grass clumps. The Masport patented Smartchute® will side discharge a clean spread of clippings as you mow to leave your lawn looking wonderful. Just engage the unique feature and begin mowing.

MASPORT BLADE SYSTEMS

Quickcut
For superior cutting, mulching and catching performance Masport mowers are fitted with unique blade cutting systems. The Quickcut blade is a top quality specially designed blade for cutting and mulching.

Quadcut® 4 Blade Disc System
Masport mowers such as the MSV® range are fitted with a specially designed 4 blade disc system, great for catching due to increased airflow.

Quadcut® 4 Blade Disc System with Chipper Blade
The additional chipper blade allows your mower to chip branches up to 35mm (1 1/4") into garden mulch, when fed through the mower via the Chipperchute.

Both the Quickcut and 4-blade disc system blades have a swingback feature, designed to protect the crankshaft from damage should the mower hit a solid object.

REAR CATCHER ALLOY RANGE

\$ 799.00

450AL COMBO

Alloy: Mulch & Catch

This mower has a great combination of features. An impressive mower for a standard suburban lawn – everyone's backyard mower.

- Comfortable upturned upper handle with PVC grip
- Reinforced lower handle for added strength
- Camlocks for quick release handle fold down
- Zone start for comfortable starting position
- Cut, Catch & Mulch
- Quadcut® 4 blade cutting system
- Plastic catcher

CHIPPERCHUTE

The Masport Chipperchute is an innovative development in lawn mowing that means your mower can do more than cut grass. The Chipperchute actually chips branches up to 35mm (1 ") in diameter using the additional chipper blade and turns them into useful mulch. As branches are chipped the chips are fed back into the catcher so you can put the mulch into your compost or garden.

REAR CATCHER ALLOY RANGE

\$ 1019.00

600AL COMBO IC

Alloy: Mulch & Catch

Similar to the 550AL Combo IC mower, but with a new Briggs & Stratton easy starting OHV engine.

- Powered by Briggs & Stratton 160cc DOV overhead valve Series 750 IC Ready Start™ engine*
- **460mm (18") heavy duty aluminium chassis**
- Front 200mm (8") & Rear 200mm (8") adjustable dual bearing wheels

- Ergo camlocks for adjustable handle position
- Steel flap
- Zone start for comfortable starting position
- Cut, Catch & Mulch
- Quadcut® 4 blade cutting system
- Aero Catcher - 60L capacity

* Could be supplied with a silver or red engine cowling.

WHY MULCH?

Mulching means less work, because when you mulch there is less weight to push and no stopping to empty the catcher.

The high-arc chassis design and the special blade means it also naturally recycles your grass by re-cutting the clippings and feeding them back into your lawn.

You will save on lawn fertilisers, watering, as well as time.

Look for "Combo" models within the Masport range for this feature.

AN EXTENDED 4+ YEAR MOWER WARRANTY

The Masport lawnmowers fitted with IC Engines combine the benefits of top quality Masport lawnmowers with Briggs & Stratton Industrial Commercial grade engines. Masport lawnmowers with this engine carry a minimum 4 year warranty (conditions apply)

Masport unique features powered by a commercial grade engine... YOU CAN'T GO WRONG!

SELF PROPELLED

Let the mower do the work. These models are fitted with a self drive system, all you need to do is squeeze the drive lever to the handle to propel the mower forward.

Durable steel gears & pinions for long life.

Gearbox with controlled progressive cone clutch - smooth engagement, so you don't tear up the lawn.

Pinions & Pawls to act as a differential, allowing cornering without ripping or tearing up the lawn.

GETTING IT GREEN

The perfect lawn is the source of pride and envy to many. It can set off your house and your garden to its best advantage, and also provides the perfect area for children to play and adults to sit back and enjoy the scenery.

WATERING
Lawns should be watered in the morning rather than the evenings. For best results, thoroughly water your lawn regularly.

FERTILISING
Regularly and lightly fertilise your lawn during the growing season. This will give better results than infrequent heavy fertilising. Use a correctly balanced fertiliser.

MOWING
Be careful not to cut your lawn too short and scalp it. Grasses need the top blade to make food for itself. Also don't mow your lawn when it's too hot or too wet. Remove lawn clippings or use a mulching mower. Keep the blades sharp and clean the mower after use.

MASPORT CYLINDER MOWERS

Masport has been selling cylinder mowers around the world for over 50 years. It's Masport's proven reputation for performance and durability that sets it apart from the competition. Masport has manufactured not only a high specification cylinder mower with precision cutting performance, but this mower is more affordable than any other powered cylinder mower we have produced before.

MASPORT 400 B&S

This cylinder mower features a Briggs & Stratton 127cc IC engine, with a 405mm (16") cutting width.

4 WAY HOME GARDENER

Arguably the most popular domestic cultivator available locally in the 70's and 80's, it has been rebuilt to the original specifications so that a new generation of gardeners can enjoy the pleasures of backyard flower and vegetable growing.

- Powered by Briggs & Stratton 3.5HP engine
- Sturdy shaft drive with worm-drive gearbox transmission
- Lightweight - 37 kg
- Simple controls and rugged construction
- Comes with tines, garden aerator, lawn edger, and cleaning brush

Comes with:

Aerator

Lawn Edger

Cleaning Brush

\$ 1799.00

BIO2017

5.5HP CHIPPER SHREDDER

The Masport petrol garden shredder is ideal for successful recycling of organic waste.

- Powered by Honda GX 160 OHV 5.5HP engine
- Reduces material to a fine mulch
- Weeds are reduced to mulch so they can't re-root
- 9 flail hammer blades
- Double chipper blade
- Larger branches can be feed through side chute
- *Optional grate available* which is designed to avoid clogging with damp leaves and foliage

Part No. 929304

\$ 1699.00

BIO2019

6HP CHIPPER SHREDDER

The chipper will break down branches up to 65mm, creating a fine mulch that's perfect for composting.

- Powered by Briggs & Stratton 205cc OHV IC 6HP engine
- Reduces material to a fine mulch
- Weeds are reduced to mulch so they can't re-root
- 9 flail hammer blades
- Double chipper blade
- Larger branches can be feed through side chute
- *Optional grate available* which is designed to avoid clogging with damp leaves and foliage

Part No. 929304

KEEP IT RUNNING

Lawnmowers are built to last. However, maintenance can be the difference in ensuring that your investment lasts a lot longer. Your dealer can advise you of an appropriate schedule to get the most out of your new purchase. Also, to ensure your mower performs as it should and that you are covered by your manufacturer's warranty we recommend you buy your spare parts from an authorised dealer and only use genuine Masport parts.

Tip on ordering spare parts like new blades from your dealer outlet, you will need to supply:

- Model name and serial number
- Year of purchase

Other Masport accessories available from your local dealer include oil and fuel cans.

COMPARISON CHART
